Achievements

Our works define us.

Prof. Khondaker A. Mamun, PhD, awarded for Contributions to Telecom and ICT

Prof. Khondaker A. Mamun, PhD, Founder, Institute of Research, Innovation, Incubation, and Commercialization (IRIIC), Professor, Department of Computer Science and Engineering, United International University, and Founder, CMED Health (AI for Health Initiative), on being awarded the Prestigious Award by the Post and Telecommunication Division, Ministry of Posts, Telecommunications and Information Technology, Government of the People's Republic of Bangladesh. This recognition was presented on the occasion of World Telecommunication and Information Society Day 2025 for his significant contributions to the development of the Telecom and ICT sector in Bangladesh. The award was conferred by the Honorable Adviser, Ministry of Local Government, Rural Development & Cooperatives & Ministry of Youth and Sports, Government of Bangladesh. His leadership in launching CMED Health solutions and establishing IRIIC as a national innovation hub has driven transformative projects across Bangladesh's health, disability, and education sectors. Building on these efforts, he has spearheaded pioneering research in Brain Computer Interfaces and AI applications for public health, assistive technologies for disability inclusion, and adaptive educational tools, demonstrating a commitment to cutting-edge innovation. At the policy level, he has advised the government on AI strategy, digital health policy, and national capacity-building programs. This award honors his visionary approach to leveraging technology for national development.
